STUDENT ADMISSIONS PACKET
Academic Year 2017-2018

**The GOLDEN
PANTHERS**

Dear Prospective Student,

Thank you for your interest in Dayton Public Schools' Ponitz Career Technology Center (PCTC). If you are interested in using the latest technologies as you prepare for college and a career, then PCTC may be right for you. PCTC offers you a comprehensive high school experience and the opportunity to specialize in one of fifteen career-oriented, college prep programs.

The Ponitz Career Technology Center accepts students at grades 9, 10 & 11 who have demonstrated a commitment to learning through good attendance and classroom behavior. Your past academic performance is an important consideration; however, the PCTC learning environment is structured to develop average students into above average achievers.

PCTC is organized into 5 separate learning communities. Ninth graders concentrate on academics and exploring multiple career opportunities within a Ninth Grade Academy. At the 10th grade, students select one of four career communities: **Arts and Communication, Health, Business and Information Technology, or Industrial and Engineering Systems**. Within your chosen community, you'll receive college preparatory academic instruction and learn specialized, technical skills within a specific career field.

The PCTC instructors and staff are committed to preparing every student to complete a Post-Secondary Education, earning career credentials and pursuing military options. Students will have access to support services, extra help and college counseling. At the PCTC you will even be able to begin your college class work while you're still in high school. Qualified students will receive a scholarship to complete a 2- year degree at Sinclair Community College. University bound students will also find that the PCTC provides them with the skills they'll need to take that next step.

You are encouraged to review the information in this packet and to discuss this opportunity with your parent/guardians and counselors. The packet contains information on the admissions process, selection criteria, a school application form, and a checklist of required documentation.

Applications for students with an IEP, are reviewed by an intake team consisting of district and building level administrators and intervention specialists.

Thank you again for your interest, and please contact us if you have any questions.

Sincerely,

Raymond Caruthers
